Regional Manager

Teen-Turn

Project Squad (September- December)

Technovation (January - April)

STEM Inside (June/July)

Work Placements (July - August)

Revision/Grinds Club (all year)

○ ○ ○ Project Squad

Project Squad invites teen girls to create a science fair project, in keeping with the requirements of both SciFest and BT Young Scientist.

Week	Curriculum Subject
Session 1:	Brainstorming
Session 2:	Writing a Research Proposal
Session 3:	Research Methodology
Session 4:	Project Management
Session 5:	Experimentation
Session 6:	Data Collection & Results Reporting
Session 7:	Project Work
Session 8:	Project Work
Session 9:	Project Work
Session 10:	Project Work
Session 11:	Writing up - Abstracts, Conclusions and Recommendations
Session 12:	Visual Presentation of Research

A finale, on the 13th week, culminates in poster presentations as part of SciFest.

○ ○ ○ SUPER Sessions

Both Project Squad and Technovation have what we call Super Sessions. These are Saturday sessions that take place in Universities or Industry where we bring girls from all our sites together for a day to work with mentors, use specialist equipment and get a chance to meet each other! Free transport and lunch included!

Technovation

Teen-Turn sessions take girls through the Technovation Girls 12 week lesson plan towards the creation of a social enterprise that gives back to their community via an app.

- Topic
- Ideation
- Design Thinking
- Market Research
- Business Models
- Prototyping
- App Development
- App Development 1
- App Development 2
- Project Management
- Review
- Marketing Plans
