

# 1-to-1 Student Devices for New Senior Cycle

# Why 1-to-1?

- Meet the demands of the roll out of Senior Cycle Redevelopment
- Supports creation, organisation and easy sharing of AAC work with teachers across subjects.
- Ensures equal access for all students
- Provides safe, managed device use
- Prepares students for third-level education, where digital learning and independent study are essential
- Develops strong IT and digital skills for further study, careers, and everyday life.

# What are Additional Assessment Components (AACs)?

- AACs compliment traditional exams by assessing coursework, projects, and practical tasks over the two years of Senior Cycle
- AACs evaluate research, critical thinking, problem-solving, communication, and digital literacy skills
- AACs require digital submission, adherence to formats, deadlines, and strong organisational skills
- 1-to-1 devices equip students to fully engage with AACs from the start of Senior Cycle

# How 1-to-1 Devices Support learning

- Supports creation, organisation and easy sharing of AAC work with teachers across subjects
- Access work anytime, anywhere
- Keep work organised across subjects
- Faster feedback helps students apply guidance immediately
- Supports students with different learning needs including EAL students
- Promotes wellbeing through better workload management
- Encourages safe and responsible technology use

# Next Steps: *Finance Options*

---

Flexible payment plans available - 3 options

1. Payment in Full through the Online Shop
2. Pay in instalments – from June to October
3. Credit union loans can support costs

# Student device

- ASUS 12.2" touchscreen “flip” with integrated stylus
  - 8GB Memory
  - 128GB Storage
  - 13MP HD Camera
  - 10 hour battery life
- IMT student protection software
- 3 year warranty
- 3 year accidental damage protection
- Initial setup and 3 year support
- Rugged case
- **€599**

# Options

- Provides student protection
- Ensures content is education focused and age appropriate
- Classroom management
- YouTube filtering
- Web filtering
- Works both at school and home
- Records all student online activities
- Highlights at-risk behaviour
